

## Beat the Credit Crunch

### Short Term Rental A3/A4 reduction/enlargement photocopier

If your old copier is letting you down, you need to change but don't want to commit in these uncertain times, why not look at our short term rental?

### Short term fully inclusive copier rental

We will supply a fully functional reconditioned digital A3/A4 copier with one 250 sheet cassette and a 50 sheet bypass. It will have reduction and enlargement and be 18 copies A4 per minute for only **£50.00** per month to include the rental and all the servicing and toner.

But the best bit is that this will be on a three month term, not the usual five years. Ideal if you are a little unsure of the type of machine required, or would like the flexibility to control the length of time that you need the copier with no financial penalties.

And that's it!

**All prices are quoted based on 1000 inclusive copies per month.**

- Faster and even colour machine available
- Some machines come with network print/scan
- Quotes available upon request
